

REBATES & ASSISTANCE

The Australian Government have renewable power incentives to make it that much easier for you to take the leap and invest in solar energy. As an Australian resident, you may be eligible to receive a benefit under the Small-scale Renewable Energy Scheme (SRES) when you have a small scale renewable energy system (solar) installed in your property.

WHAT ARE THE BENEFITS?

Small-scale renewable systems that may be eligible for certificates include:

- ☀ The amount of renewable electricity the system produces or the amount of electricity consumption it reduces
- ☀ The climate region where it is installed

ARE YOU ELIGIBLE?

Small-scale renewable systems that may be eligible for certificates include:

- ☀ Solar Photovoltaic (PV) panels
- ☀ Wind Turbines
- ☀ Hydro Systems
- ☀ Solar Water Heaters
- ☀ Air Source Heat Pumps

Owners have 2 options for receiving benefits for their STCs:

- ☀ Assigning them to an urgent, usually the system installer, in exchange for a discount or delayed cash payment
- ☀ Selling the certificates themselves
